SMARTCHAIR

SmartChair – Power Wheelchairs that Create Freedom

The SmartChair series consists of modern, foldable power wheelchairs that combine sleek design with powerful performance. They are easy to operate, convenient to bring along – and designed to give the user greater independence in everyday life.

Whether you're looking for a model for daily use, travel, or navigating tight spaces, there's a SmartChair to suit your needs.

SmartChair Max S

A stable and versatile power wheelchair for both indoor and outdoor use.

SmartChair Max Mini

Compact and agile, ideal for tight spaces.

SmartChair Max D

The dual footrest provides enhanced comfort and support.

SmartChair Travel

Ultralight and easy to carry – perfect for travel.

A backrest that can be reclined and adjusted in height

Foldable joystick

Lithium-ion battery

- Removable
- 2-year warranty
- IATA approved

Footrest

Storage pocket

Flip-up armrests with adjustable height and depth

Storage basket

The easy lift

A smart feature that simplifies everyday life, available in the SmartChair Max S, Max Mini, and Travel models.

Lifting a power wheelchair doesn't have to be heavy. With the lightweight lift system, the lifting weight is reduced by up to 40%, thanks to retractable loading wheels that activate when needed. This makes the wheelchair easier to handle during transport – especially in cars – and helps protect both backs and shoulders.

Advantages of the lightweight lift:

- Up to 40% reduction in lifting weight
- Quick and easy to activate
- No impact on stability or functionality

SmartChair MAX S is a foldable electric wheelchair designed to restore your independence and make caregivers' work easier.

With its advanced ergonomic design, the SmartChair offers maximum comfort and support, allowing you to move effortlessly through your surroundings. Its smart foldable construction makes it easy to transport and store, making every journey smooth and comfortable. Explore the world without limits — where comfort meets convenience and obstacles disappear.

To further assist caregivers, the SmartChair MAX S is equipped with innovative retractable loading wheels, a groundbreaking feature that improves lifting ergonomics. This innovation reduces lifting effort by up to 40% without compromising the wheelchair's robust and durable construction. We call this smart aid "the easy lift."

Specifications

SmartChair MAX MINI offers freedom in a more compact design — with smart features for an easier life.

SmartChair MAX MINI is the smaller sibling to the SmartChair MAX S — a foldable power wheelchair offering the same high level of comfort and stability, but in a more compact design that makes it even easier to maneuver in tight spaces.

Its compact design is perfect for those seeking a power wheelchair that's easy to transport, store, and use daily—whether at home, traveling, or in the car. Despite its smaller size, the MAX MINI is a fully functional power wheelchair with ergonomic seating comfort and smooth handling.

To make transport easier, it's equipped with our retractable loading wheels — an innovation that reduces lifting effort by up to 40%. We call this feature "the easy lift" — a smart aid that makes lifting gentler for both users and caregivers.

The SmartChair MAX MINI combines quality and flexibility in a compact model that gives you the freedom to move effortlessly every day.

Specifications

Dimensions (unfolded)	L x W x H: 1 010 mm x 560 mm x 945 mm
Dimensions (folded)	L x W x H: 400 mm x 560 mm x 800 mm
Seat width	400 mm
Maximum load	150 kg
Net weight	31,8 kg (with battery) / 29,3 kg (without battery)
Maximum slope uphill	6°
Range on full charge	≥15 km or up to 30 km (under normal conditions)
Maximum speed	7.5 km/h
Turning radius	920 mm
Maximum obstacle height that can be crossed	50 mm

SmartChair MAX MINI offers freedom in a more compact design — with smart features for an easier life.

SmartChair MAX D is our robust foldable power wheelchair, designed to provide you with increased stability and comfort. With its wide seat and dual footrests, the SmartChair MAX D offers extra support and a more comfortable seating experience, making it ideal for users who spend extended time in the chair. The dual removable footrests facilitate easier transfers to and from the wheelchair.

Despite its sturdy construction, the MAX D is just as easy to fold and transport as our other models, giving you the flexibility to take it on trips or store it in tight spaces. The stable and secure feel provided by the SmartChair MAX D makes it an excellent choice for both indoor and outdoor use.

SmartChair MAX D combines strength and functionality in a thoughtful design, giving you the freedom to live an active and independent life.

The perfect power wheelchair for those who want to travel light and move freely.

SmartChair Travel is a lightweight and compact power wheelchair that makes it easy to get around in daily life and while traveling. Weighing only 23 kg, it's simple to lift, transport, and store. The smart folding mechanism allows the chair to fold in just seconds without tools, and when folded, you can roll it like a suitcase thanks to the integrated trolley wheels.

To make transport even easier, it's equipped with our retractable loading wheels – an innovative feature that reduces lifting effort by up to 40%. We call it "the easy Lift" – a well-thought-out solution that makes handling gentler for both users and caregivers.

SmartChair Travel is designed to give you maximum freedom and flexibility. It goes everywhere with you, enabling you to live an active life without limitations.
