MINI 2 PLUS

If you're looking for a compact, practical, and versatile mobility solution without compromising on quality and power, the Batec Mini 2 PLUS is the perfect handbike for you.

The Batec Mini 2 PLUS comes standard with many options, including front and rear lights, adjustable speed in three settings, a maximum speed of 20 km/h, reverse gear, a USB charging socket, and an all-in-one display. The handlebars of the Batec Mini 2 PLUS can be easily folded in half, making it suitable for any car. The Batec Mini 2 PLUS is also available with all controls on one side or in a special "tetra" version for users with limited hand function.

The Batec Mini 2 PLUS uses the same Easy-Fix coupling system as all other Batec handbikes and can be easily attached in just 3 seconds. A coupling system is available for both folding and fixed-frame chairs. The Batec Mini 2 PLUS is available in graphite gray.

Light and compact

The Batec Mini 2 PLUS's folding handlebars make it easy to transport and store. At 72cm tall (with the handlebars folded down) and weighing just 12.9kg, the Batec Mini 2 fits in any car. Despite its very compact size, the Batec Mini 2 PLUS is a real powerhouse. Thanks to a powerful 600W motor and smart electronics, the Batec Mini 2 PLUS has a top speed of 20 km/h.

LCD Display and Intuitive Control System

The Batec Mini 2 PLUS is equipped with an integrated LCD display that provides clear information about speed, battery level, and driving data during use. The built in trip computer makes it easy to keep track of important information while driving. The display is complemented by an intuitive control system that offers smooth control of acceleration, braking functions, and driving modes for a simple and comfortable user experience. In addition, both a USB port and a horn are integrated.
