EASYWHEEL

Easywheel is a low-g geared wheel that makes everyday wheelchair use easier. It gives you extra power when facing slopes, thresholds, carpets or uneven ground, helping you overcome obstacles with less effort.

Easywheel is an innovative power-assist wheel designed to make pushing your manual wheelchair easier and less tiring. Rather than replacing your wheelchair, Easywheel attaches directly to your existing chair, providing extra mechanical drive that reduces the effort needed to move, especially on slopes, thresholds, or uneven surfaces.

By using a clever low-g geared system integrated into the wheel hub, Easywheel effectively doubles your pushing power. This means less strain on your arms and shoulders during everyday activities, helping to reduce fatigue and the risk of overuse injuries.

Compatible with most manual wheelchair models, Easywheel is quick to install and can be easily removed when not needed. Its compact design adds minimal weight or width to your chair, preserving maneuverability and comfort. Whether you're moving indoors or outside, Easywheel offers a smoother, more comfortable ride – supporting your independence every step of the way.

Specifications

Weight	2865 gr (with tires, without pushrim)
Wheel dimensions	20", 22" and 24"
Air pressure	6 bar or PU-tires
Increase seat width	ca. 1 cm
Max userweight	125 kg
CE marking	In compliance with MDR 2017/745 class 1

Easywheel's thoughtful design focuses on ease of use, durability, and safety. The system includes a simple quick-release axle for fast mounting and removal, allowing you to adapt your wheelchair to different situations without hassle.

Its low-maintenance mechanical drive requires no batteries or charging, making it a reliable companion for daily use. The wheel is available in multiple sizes to fit a wide range of wheelchair frames, and the included spoke guard helps prevent clothing or fingers from getting caught.

By reducing the force needed to propel your wheelchair, Easywheel helps protect your shoulders and arms from strain and injury, making longer journeys more comfortable and accessible. Its lightweight and compact design ensures your wheelchair remains easy to transport and store.

Easywheel is the perfect upgrade for manual wheelchair users who want to extend their mobility, increase comfort, and maintain control – all while keeping the familiar feel of their own wheelchair.
