Batec Hibrid 2
Exercise for everyone

Batec Hibrid 2

Exercise for everyone

The **Batec Hibrid 2** is the perfect handbike for exercising without giving up the comfort of your manual wheelchair. Together they become the **equivalent of an electric bicycle**, giving you the **extra boost** you need while you enjoy a **complete workout**.

1. New own electronics with 3 levels of assistance + E mode. Power cut-off brake sensor.
2. Torque sensor: Assisted starting mode on slopes without having to make a quarter turn of the pedals.
3. New improved trigger throttle and speed regulator.
4. Batec Shift Lever gear shift with 8 speeds for quadriplegic users and 9 for paraplegic users.
5. Batec Quad Grips to manoeuvre without taking your hands off the grips, and Batec Magic Lever.

SPEED:
20 km/h

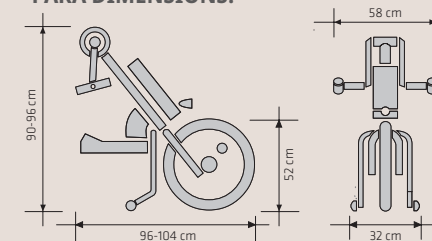

WEIGHT:
20,6 kg (without battery)

AUTONOMY:
27-40 km* (with battery 280 Wh)
55-80 km* (with battery 576 Wh)

* Autonomy calculated under the following conditions: user weighing 75 kg, ultralight wheelchair, flat terrain, no wind, and an average speed of 15 km / h. It may vary + -20% depending on the battery. The range depends on the force applied by the user.
